PROFESSIONAL SUMMARY

Results-oriented Full Stack Developer with 3 years of experience building modern web architectures using Node.js and React. Specialist in developing scalable features, integrating complex third-party APIs, and managing production environments on Google Cloud Platform. Strong advocate for Clean Code, SOLID principles, and TDD. Analytical professional focused on delivering technical excellence and business value in remote-first settings.

PROFESSIONAL EXPERIENCE

Full Stack Developer CLINICORP

SEP 2022 — PRESENT

- Architected and delivered full-cycle features using React.js and Node.js.
- Integrated high-impact RESTful APIs for healthcare systems and Google services.
- Optimized production workflows within Google Cloud Platform (GCP), utilizing Cloud Datastore for scalable data management.
- Enhanced application reliability through Jest unit testing and rigorous Code Reviews.
- Collaborated in distributed Agile squads using Jira to meet complex product requirements.

SELECTED PROJECTS

HEALTHCARE HUB

Managed integration of external lab APIs to display radiography exams via GCP Cloud Datastore for seamless synchronization.

GOOGLE AUTOMATION

Developed automated reputation system using official Google Business API, centralizing reviews and clinic data updates.
